Employment

Students who are EU citizens are entitled to work in the same way as Czech students. However, opportunities are limited, and rates of pay are low. Non-EU students with a student visa are allowed to do some paid work but not as their primary occupation.

International Student Club

The prize-winning International Student Club at CTU in Prague offers a wide range of assistance to ensure that international students have the richest possible study and social experience in Prague. ISC "buddies" contact incoming international students before their arrival, and offer to meet them at the airport/railway station, and then help them to settle in. Problem-solving, excursions, parties and sports activities are only a part of the ISC programme during the semester.

International Student Club is a student organisation which provides support for the international community at the Czech Technical University in Prague. ISC integrates exchange students into life in the Czech Republic and into events at CTU. It also organises many events (trips, parties, sports, cultural events, language events and much more) as well as the Orientation Week and the Buddy programme.
